The Best Salesperson Is You

Smell, Feel, Touch

- The simplest way to believe in the product is to test it out yourself.
- Experience each product you're interested to private label first-hand.
- Take pride that the brand you create never uses sulfate or paraben, and is never tested on animals.

Our Pledge to You

Since our start, creating zero-waste and earth-friendly products was important to us. At the start of 2020, we pledged to start eliminating plastic bottles from our product line. After one year we can report that we have eliminated 80%. We have resorted to refillable tins, aluminium and glass bottles as well as paper and wax paper wrappers. We hope on day to eventually be plastic free. The industry still has some catching up to do before we reach this stage, but thanks to conscientious consumers like yourself, manufacturers will need to change faster. Together we can support this effort and move forward towards a plastic free planet.
